SUMMARY

With a degree in Communications, experience in full-stack software development, an entrepreneurial and creative mindset, and leadership skills from the Marine Corps, I have a unique background capable of understanding users, collaborating with others, articulate complex concepts in a clear manner, and an ability to understand the capabilities of the different members of the team.

EDUCATION

The Ohio State University

Graduation: May 2021

B.A. Communications

GPA: 3.346

Course work integrated communication, computer science, design, psychology, and business to understand interactive technology, evaluate the user experience, and communicate with users from varying levels of technical proficiency.

Full Stack Java Development Training Program

Skill Distillery; Greenwood Village, CO

| • Leadership | • User Research | • Jira | • Dreamweaver |
| • User Experience Design | • Problem Solving | • Balsamiq | • InDesign |
| • Wireframe/ Mockup/ Prototype | • Design Thinking | • XD | • Qualtrics |

EXPERIENCE

Spring CRUD Application

Project Link: <http://18.216.47.133:8080/MVCRentAFriend/>

- Member of a 4-person team
- Designed, developed, and deployed a dynamic full stack web application.
- This project was the culmination of everything learned midway through our training at Skill Distillery
- Created User Stories, wireframe, journey map, Kanban style board
- Built within a week sprint following the Agile Scrum framework
- Designed and implemented the Controller application that interacted with the database and Data Access Objects.
- Designed and implemented the POJOs and their relational mappings and testing with JUnit.

Angular/RESTful Web Application

Project Link: <http://18.216.47.133:8080/AA/#/home>

- Member of a 4-person Scrum team
- Designed, developed, and deployed a full stack dynamic web application as our Skill Distillery capstone project
- Designed and implemented the database schema
- Design and implemented POJOs and their relational mappings
- Implemented Controllers and Data Access Objects, as well as AJAX components, and a consumer for a RESTful service
- Designed and implemented a dynamic user responsive interface using Angular.

United States Marine Corps (2012-2017)

Corporal/Collateral Duty Inspector 6123 CH-53 Helicopter Engine Mechanic

- Read and interpret maintenance manuals, service bulletins, and other specifications to determine the feasibility and method of repairing or replacing malfunctioning or damaged engine components.
- Inspect completed work to certify that maintenance meets standards and that components are ready for installation.
- Monitor mechanics during maintenance to ensure proper safety practices are followed.
- Troubleshoot defected engines, and repair to the standard status.
