SUMMARY

With a degree in **Communications**, experience in **software development**, **leadership** skills from the Marine Corps, and an **entrepreneurial** and **creative** mindset, I have a unique background capable of **emphasizing** with all members of a design team, stakeholders, and shareholders as well as being an **asset** to the development of **digital products**.

EDUCATION

The Ohio State University

Communications

May 2021

- Computer Mediated Communication
- Product Design (UX, UI, CX, HCI)
- Psychology
- Entrepreneurship
- Public Speaking / Persuasive Communication
- Academic and Human Research

Full Stack Java Development Training Program

Skill Distillery; Greenwood Village, CO

- Java/JEE, JavaScript
- RESTful APIs
- MySQL
- HTML, CSS, Bootstrap and Angular
- Oracle Certified Associate (Java SE 8 Programmer)

SKILLS/TOOLS

- | | | | |
|--------------------------------|------------------------|------------|---------------|
| • Design Principles/Process | • Customer Development | • Agile | • Tableau |
| • Theoretics of Communication | • Product Design | • LEAN | • Photoshop |
| • Leadership | • User Research | • Jira | • Dreamweaver |
| • User Experience Design | • Problem Solving | • Balsamiq | • InDesign |
| • Wireframe/ Mockup/ Prototype | • Design Thinking | • XD | • Qualtrics |

EXPERIENCE

Spring CRUD Application (Rent a Friend)

<http://18.216.47.133:8080/MVCRentAFriend/>

- Designed, developed, and deployed a dynamic full stack web application.
- Created User Stories, wireframe, journey map, Kanban board
- Designed and implemented the Controller application that interacted with MySQL and Data Access Objects.
- Designed and implemented the POJOs and their relational mappings and tested with JUnit.

Angular/RESTful Web Application (Auto Advisor)

<http://18.216.47.133:8080/AA/#/home>

- Designed, developed, and deployed a full stack dynamic web application as the Skill Distillery capstone project
- Designed and implemented the MySQL schema
- Designed and implemented POJOs and their relational mappings
- Implemented Controllers and Data Access Objects, as well as AJAX components, and a consumer for a RESTful service
- Designed and implemented a dynamic user responsive interface using Angular.

United States Marine Corps (2012-2017)

Corporal/Collateral Duty Inspector

6123 CH-53 Helicopter Jet Engine Mechanic

- Mentored junior Marines in leadership, maintenance, physical fitness, and motorcycle safety.
- Read and interpreted maintenance manuals, service bulletins, aviation directives and other specifications to determine the feasibility and method of repairing and replacing malfunctioning and damaged engine components.
- Inspected completed work to certify that maintenance meets standards and that components are ready for installation.
- Troubleshoot defected engines and repaired to the standard status.
- Held Marines accountable for all Local Command Procedures and Naval Aviation Maintenance Program Standard Operating Procedures.
